

“ To see my students talking about what they understand is really profound. I’ve seen it before in other platforms, but it’s more powerful in [Bongo] because of the varying kinds of assessments you can do. ”

LYNDA RANDALL, PH.D.
Professor, California State University, Fullerton

Bongo helps instructors assess learners’ soft skills and the application of knowledge at scale.

HOW WE DO IT:

ASYNCHRONOUS VIDEO ASSIGNMENTS

Bongo’s video workflows support activities like conflict resolution and collaborative activities from anywhere, on any device.

SYNC COMMENTS

These time-stamped comments drive improvement by giving learners direct evidence of their strengths and weaknesses.

SYNCHRONOUS VIRTUAL CLASSROOM

Our web conferencing tool facilitates real-time interactions between learners, their peers, and the instructor via video.

SEAMLESS INTEGRATION

Bongo integrates into nearly every learning management system, ensuring grades within the platform automatically upload into your gradebook.

VIDEO FEEDBACK

Along with text-based comments, instructors can also provide video feedback to increase engagement and give more personalized coaching.

Bongo (formerly YouSeeU) is a video assessment & soft skill development platform. With its proprietary video technology and powerful feedback capabilities, Bongo enables the mastery of communication, collaboration, and critical thinking. Bongo was founded in 2009 and is headquartered in Loveland, Colorado.
